

Stop Climbing that Ladder, and Build Your Own!: Leverage your skills, excel professionally and love what you do.

This book encapsulates Peters thoughts on opportunity, entrepreneurial endeavors and professional excellence. He walks the reader through a review of the modern corporate world (and how this affects each of us specifically), the obstacles that most employees have to overcome in order to advance up the corporate ladder, how to leverage the modern workplace to become an A-player and how to make the move toward professional independence and meaningful work for the rest of your life. Are you simply tolerating your work? If so, you will spend your life counting the hours (or minutes!) until your next holiday, vacation or retirement this is simply no way to live! Do what you love, and you wont ever want to retire. You can purchase this book on Amazon if you wish, but you can have a copy for free if you join Peters mailing list. Not only will you get a copy of his book just for subscribing to the list, but you will also join a community of people who care about work, life and everything in between. Stop Climbing That Ladder, and Build Your Own! is chock full of useful advice for anyone who is looking to do more than just earn a paycheck. Read it, and you will have a process in place to help you asses your current situation and to plan for a future that is brighter than you could have ever imagined.
