

Miscarriages: My Story

This memoir brings the perspective of a christian woman to the experience of miscarriage. The trials and emotional changes, the feelings experienced when being around other pregnant woman after having had a miscarriage, how turning to God got her through them, and more. Kathleen, a mother of three and married for 20 years, relates her personal feelings and emotions. As you read the book you will experience a conversation with Kathleen about this topic, and learn how one woman dealt and struggled with this topic. This second edition expands upon the original revision with updated content. The author states: Although my book is about how I got through my miscarriages and can help other women & their husbands get through their own miscarriages I also wrote a Chapter for women who for whatever reason can not have any kids at all.
