

The DIY Wedding: An Essential Guide to DIY Wedding Ideas, Including Invitations, Decorations, Centerpieces, Programs, and Favors

If you're a DIY junkie who's preparing for a dream wedding, and you want to save some money while adding a unique flair to the ceremony, then this book is for you! Read on your PC, Mac, smart phone, tablet, or Kindle device. For all you girls who can never find the perfect thing, or those of you who appreciate Etsy-esque items, but just don't have that kind of money to spend, this is your opportunity to create your own wedding paraphernalia exactly to your liking. Each chapter is focused on a separate component of your wedding, from the invitations to the centerpieces to the party favors. And of course, there are different levels of DIY, depending on how in-depth you'd like to get. You'll have a complete list of required and suggested materials, as well as step-by-step instructions to create the item at hand. Everything will be super easy and fun to do, and your guests will be astonished when you tell them that you made everything yourself. Don't wait until the last minute though. Simple and fun though these projects may be, they will take time to perfect, and you want everything to be absolutely flawless on your wedding day. If you need some extra help getting it all done, you might want to think about enlisting your bridal party. This can actually be a fun plan for a low-key bachelorette party or as an awesome way for the bridal party to bond prior to the big day, especially if they haven't all met before. Here is a preview of what you'll learn... Wedding Invitations Mood-Setting Decorations Table Decorations and Centerpieces Programs for the Ceremony Wedding Favors Much, much more!
