

Trimmings: The Art of Holiday Living (Leisure Arts #15955)

Our new holiday publication is not like any you've seen from us before. In each chapter, we issued a challenge to our designers: Thrill us with your individual take on the very same project. And thrill us they did. Each designer challenge serves two purposes -- to illustrate how many different ways there are to tackle one design, and to encourage you to let your personality shine through as you approach the projects. There are 5 chapters: Adorn (decorations); Gather (entertaining); Home (set the stage for making merry); Gifts (ideas for handcrafting); and Treats (recipes and clever packaging). But don't worry. If you aren't ready to strike out on your own, we've included patterns and specific instructions for re-creating all the projects.
