

A-Z of Careers and Jobs

For anyone looking at starting their career, or changing jobs, the A-Z of Careers and Jobs is a goldmine of highly relevant data on today's career opportunities. Looking at over 300 occupations, the book not only tells you about the jobs available, but also describes the skills employers are looking for and the type of qualifications and training you need to succeed in your chosen career path. Editor Susan Hodgson, formerly Head of Careers Service at London South Bank University, provides a host of background detail including sector information, useful websites for further research, details on starting salaries and valuable contact data. She ensures that the book provides in one source all the information you need to make an informed career choice. Published in association with The Times, and now in its 14th edition, the A-Z of Careers and Jobs is the reference source of choice for anyone who is starting out on - or looking to change - their career.
