

Macroeconomic Policy Formation in Africa - Country Cases (African Development Perspectives Yearbook)

This Volume 17 of the African Development Perspectives Yearbook considers the following major issues: the macroeconomic policies in post-conflict countries (especially reviews of growth, social progress, and public finance strategies in medium-term frameworks) with Sudan and South Sudan as the country cases; and macroeconomic policy formation in West Africa -- with case studies presented on Senegal and Nigeria in the West African Monetary Zone and the CFA Zone. In addition, the book presents book reviews and book notes. (Series: African Development Perspectives Yearbook - Vol. 17) [Subject: African Studies, Economics]
