

The Biography of Physicist Dr. J. Joseph Brown and His Discovery of the Human Soul

A graphic novel of Dr. J. Joseph Brown a sub-atomic physicist who in his quest to discover dark matter creates a device that instead allows him the capability of seeing in humans their soul. The story more or less puts into question what would happen if mankind knew that each individual had a soul or even animals for that matter and the ramification of such discovery. Putting into emphasis our understanding of morality and mortality.
