

Development and Evaluation of Modules in Technical Writing

For beginning writers of reports, researches and technical papers, the information presented by the researcher is indeed very helpful. Moreover, the detailed results presented speaks of the scholarly analysis and a professional approach to scientific writing. Esther R. Hufana, PhD This rare resource will generate interest for writers and students to work on term requirements and graduate school work. Loreto B. Waguey, PhD This is one of a kind. Kudos to my teacher! Christ John Sia
