

# Papercrafts for Children: Fun Projects Using Paper, Paints and Stamps

Children (with a little help from an adult) will get creative with this great collection of projects that use painting, paper, and polymer clay modeling three crafts that kids like best. It includes bright, easy-to-make items that appeal to both girls and boys and range from a friendly flowerpot and pencil-top snake eraser to a butterfly picture frame and space-age mobile with rocket ships and stars. Plus, kids are encouraged to think imaginatively and to choose their own favorite designs, decorations, and colors not just follow whats on the page. An introductory section covers everything about materials and tools.
