

The Opportunity

An exciting debut graphic novel casts a ruthless spotlight on the unforgiving world of door-to-door salesmen in a modern-day noir. Death of a Salesman. First thing I'm going to buy when I get my own office is a Porsche Boxster. It's winter in Hastings when we meet young Colin, a highly ambitious door-to-door salesman on the verge of making it big time as the owner of his own sales office. And the future is looking good. But when the terms of his promotion change without warning, Colin and his team find themselves with just five days to achieve a new sales target and to prevent his rival, Paul, from being promoted in his stead as regional manager. Mentally and physically exhausted, Colin has to keep his disgruntled team from negging out, train a new recruit from scratch, hatch a scheme to eliminate Paul, and all the while keep a safe distance from a gang of ruthless debt collectors that are out on the streets looking for him. Of course, everything is going to be fine, more than fine, in fact but meanwhile, he runs out of coins in the phone box and the boss isn't taking his calls. As Colin's grasp on reality dissolves in the rain that lashes Hastings residential estates, we see how the relentless focus on positive thinking in the face of exploitative management, pay and conditions leads to delusion, vulnerability, failure, and, finally, human tragedy.
