

## The Beautiful Beaded Home

As the popular book *Beaded Home* (1-57990-381-9) proved, no house can ever have enough glimmering, shimmering beads. This follow-up continues the beading fun with a bounty of additional attractive projects and novel decorating ideas, all in contemporary settings. Anyone can craft these creative offerings - even total beginners. The well-illustrated instructions explain everything from stringing beads on thread and wire to making fringes and using a simple beading loom. Imagine handcrafted wind chimes with elegant beaded details that sparkle as they move in the breeze or a funky hanging votive candleholder. These lampshades, frames, pillows and ornaments will please everyone who loves beads.
