

Sermons, by Hugh Blair, D.D. One of the ministers of the High Church, and Professor of Rhetorick and Belles Lettres in the University, of Edinburgh. Volume 1 of 5

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. The Age of Enlightenment profoundly enriched religious and philosophical understanding and continues to influence present-day thinking. Works collected here include masterpieces by David Hume, Immanuel Kant, and Jean-Jacques Rousseau, as well as religious sermons and moral debates on the issues of the day, such as the slave trade. The Age of Reason saw conflict between Protestantism and Catholicism transformed into one between faith and logic -- a debate that continues in the twenty-first century.++++The below data was compiled from various identification fields in the bibliographic record of this title. Adam Smith and the Enlightenment - University of Glasgow The gravestone of Hugh Blair, Greyfriars Kirkyard
Hugh Blair FRSE (7 April 1718 – 27 December 1800) was a Scottish minister of religion, author and rhetorician, considered one of the first great theorists of written discourse. As a minister of the Church of Scotland, and occupant of the Chair of Rhetoric and Belles Lettres at the University of Edinburgh, Blair's teachings had a great influence. Best known for Sermons, a five volume endorsement of practical Christianity, he was promoted to the High Church of St. Giles the highest position that a minister of the Church of Scotland could hold. He was also a professor of Rhetoric and Belles Lettres in the University of Edinburgh. Sermons, by Hugh Blair, D.D. One of the Ministers of the High Church, and Professor of Rhetorick and Belles Lettres in the University, of Edinburgh. Volume 1 of 5. The 18th century was a wealth of knowledge, exploration and rapidly growing technology and scientific discoveries. By the late 18th century, a number of natural scientists, philosophers, and engineers had promulgated scientific principles for understanding the natural world. The Enlightenment was a period of intellectual, artistic, and scientific growth in Europe, characterized by a renewed interest in reason and science.
