

Life Lessons: What experience teaches us about success

Parental instincts have been known to drive parents to do wild, crazy and often over protective things. The four books contained within this collection are proof of how far one parent was willing to go when he felt the need to protect one of his children. The advice you'll find in Life Lessons about how to be more successful in any aspect of life could be considered good advice for everyone. You will most likely find that it reads as good advice from the author to his child. But, it also could be good advice from a supervisor to their employee or from a friend to a friend. Yes, it is even good advice from a child to a parent. The advice contained on the pages of these books knows no vocational limitations. The path to success in one career choice is virtually the same in all of them. The advice you will find here applies to people of all ages with any educational background and doesn't require any specific level of life experience to be considered valid. No matter what your goals, your hopes or your dreams, the advice you will find within these pages will help you to find the success you seek. As you turn each page, you may discover many new ways to look at old things. You may remind yourself of some of the hard lessons that you too have learned from life or you may smile to yourself when you realize that... Life really is this simple...if you let it be.
