

On the Outside Looking In: Discovering how pain leads to purpose

On The Outside Looking In: Discovering How Pain Leads To Purpose is the second book released by Rayford E. Malone Ministries. This book takes an in-depth look at the shame and withdrawal that comes from damaged relationships and how many of us turn those negative feelings inward and we allow them to consume us as they become our reality. However, God still has a purpose in our shame and this book shows us how God seeks to rebuild the individual by using their wounds for His glory.
