

The Pattern in the Mount: And Other Sermons (Classic Reprint)

Excerpt from The Pattern in the Mount: And Other Sermons Look that thou make them after the pattern that was showed thee in the mount. - Ex. xxv. 40. This occurs in the course of a lesson that the Lord was giving Moses on architecture. The tabernacle was not yet built. This lesson had primary reference to the tabernacle and its furniture. Moses when he went down from God on Sinai knew what he was going to build and how he was going to build it. The tabernacle was with him already a fact, a mental fact - as real a thing to him then, I suppose, as it was afterward when it stood out upon the plain a palpable affair of rams skins, goats hair, and shittimwood. The thought of a thing, the conception of it, is its first half and largest half. It is easier to pour in the molten iron than to make in the sand the mould into which it is to be poured. In the idea, the tabernacle was already finished and furnished. He had now only to go on and set up upon the ground in forms of wood, linen, and metal, the structure that in his mind was already forecast and divinely complete.
