

Career Success in the New Millennium : A Guidebook for Career Success in an Era of Uncertainty and Change

Career Success in the New Millennium is your guidebook to building a successful career in today's topsy-turvy, unpredictable career world. Written by an accomplished speaker and trainer, this book is filled with practical, proven techniques that you can use to get and keep your career on track - to get you where you want to go. Here's what you'll find inside. - A review of the changes that have taken place in career markets in the past few years, and how these changes will impact you and your career in the years to come - Changes you can easily make in your career to take advantage of the incredible opportunities available in the coming years - A powerful approach to designing your career growth pathway, plus strategies you can use to get going right away - An understanding of what it takes to succeed in any job, and what you can do to turn your accomplishments into powerful job-finding tools - Self-mastery techniques that will make you more successful in your career, and in every other area of your life - and much more. Also included are six special sections to answer your questions about: - Getting started in your career - The importance of money, and how to make more of it - Key technologies you need to know and work with - Breakout strategies if your career is stuck - Plus tips for time management and building successful relationships. Read Career Success in the New Millennium, and get what you want from your career - and your life!
