

Preterist Time Statements

The New Testament records more than 350 direct and indirect references to the timing of the Second Coming of Christ. None of them claims to narrow the window to a single day or hour. But every indication was that it would happen to the generation who saw Christ walk the earth. This book presents a list of the types of statements made by Christ and his Apostles, as well as a catalog of hundreds of statements that the Second Coming was at hand. If a single one of them can be proven to refer to the Second Coming, there is no other option than to accept that Jesus was who he said he was, and did what he said he was going to do. Right on time.
