

## Journey To Your Potential

Journey to Your Potential will help you discover and pursue your potential. In polls conducted by Harris Interactive, Gallup, ABC News, Opinion Dynamics Corporation and others, we learn that over 90 percent of Americans believe in God. Having a meaningful relationship with God is our highest priority. While most of us believe in God, we struggle in discovering and reaching our potential. We start by reminding you how to use your heart. When you do find your purpose, it will swell inside you and fill you with compassion. It has been said, if your purpose doesn't cause you to cry with joy, then you haven't found it. You know your purpose - deep down. It is burned within your soul.
