

Think and Be Phenomenal

Leadership expert John C. Maxwell says, The difference between highly successful people and those who aren't is how they think (and what they think about). A man by the name of Frank Outlaw said. When you Change your THINKING, You Change your BELIEFS. When you Change your beliefs, You Change your EXPECTATIONS. When you Change your expectations, You Change your ATTITUDE. When you Change your attitude, You Change your BEHAVIOR. When you Change your behavior, You Change your PERFORMANCE. When you Change your performance You Change your LIFE Every human goes through 5 Levels of thinking (and being) to reach any goal, to learn any new skill, or to change any habit. No goals are met without going through The 5 Levels. No new skill is developed without The 5 Levels and no habit is changed without The 5 Levels. You will not BEcome the person you were created to be Spiritually, mentally, emotionally or physically without going through the 5 Levels process. You won't have the relationships you want to have without going through the process. And you won't have the success and significance you want in life without going through the process. No one does. The problem is that we aren't usually aware of the process.
