

Fares, Please: And Other Essays on Practical Themes (Classic Reprint)

Excerpt from Fares, Please: And Other Essays on Practical Themes It is a happy book whose chapters live and work together as a family of blood relatives. This little volume cannot aspire to such felicity. Its covers open on an orphan asylum rather than a family. Like the inmates of an Orphans Home, its chapters are many and are all small; they are dressed in but the plainest workaday gingham and calico; they are all waifs - picked up on widely scattered lanes of observation. Yet for a that, they are not entirely unrelated. They are on speaking terms with one another, and try, at least, to speak a common language of faith and hope. They all believe that life is an affair of great zest and great prizes, and they share together the conviction of Arthur Hugh Clough that Life loves no lookers on at his great game. The essays are offered simply in the hope that they may prove suggestive starting points for thought. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
