

Angels, Ghosts and Demons (True Ghost Stories & Hauntings Book 2)

Hello dear reader, and thank you for taking the time to look at this book. I can guarantee you won't be disappointed. Every story given here is true - provided by members of the public, sceptics and paranormal teams. I hope they make you shiver, as I did when I collected them. All I can say is this volume is even bigger and better than her sister - Ghosts, Demons and Dolls. There are more interviews and far more contact with demons! Whatever you think of the paranormal field, read this and it might alter your perception. I have also included a sceptic's point of view at the end of the book. You however, shall have to draw your own conclusions. Warning: if you read this in bed try to sleep well, but check under the bed and in the cupboards first! If you don't read in bed check the doors are locked and the house really is empty before you start! Enjoy!
