

Transition to Survival: Enterprise Restructuring in Twenty East German and Hungarian Companies, 1990-1997

This work features different companies and their change in situation between 1990 and 1997. The author focused on changes in each company's vertical integration; its integration with and relationship to its investor; changes in its human resource policies and the general handling of labour shedding; changes in its product range, production methods, product markets and competitive situation; and the regional effects of FDI and changes in the company's procurement policies. The study comprises mainly of manufacturing companies with a few construction companies included to examine issues arising from localized company operations.
