

DIY How to Get Rid of Bed Bugs Yourself Like a Pro: A Step-By-Step Extermination Guide for Getting Rid of Bed Bugs

THE BED BUG EPIDEMIC IS REAL. The good news is, you can do something about it... Do you have a problem with bed bugs? Are you scared you might get them? Did you know that the bed bug epidemic is rapidly spreading?... An exterminator once told me: Its not if we get them. Its when we get them. How can bed bugs affect your life? Bed bugs can create a big strain on your social life, health, well-being, and happiness. This is not something to be taken lightly, because bed bugs can be extremely difficult to get rid of if you dont have the correct knowledge. Because of this spreading epidemic, millions of people are disposing of their furniture and other belongings which is adding to the landfills. Millions of dollars are being tossed down the drain. Loads of time is being wasted because people are not educated on how to eradicate this overwhelming problem. What about buying products to get rid of bed bugs? There are some good products that work like diatomaceous earth, but, unfortunately, there are tons of places marketing the wrong chemicals, natural methods, devices, traps, and bed bug killers, to unsuspecting customers who are desperate to get rid of bedbugs. Little does the average consumer know, many companies are profiting from products that only somewhat work, or do not work at all, and they dont even know how the products are properly used, so you could make the problem worse by not doing it right the first time. However, this guide will explain to you which products will and wont work and tell you how to use them. What about researching the internet? For some reason, blogs, websites, and videos on the internet always manage to leave out important information not to mention all the incorrect information that sleazy spammers are putting out there just so they can sell you products that they dont even know if they work or not. Researching and cross

referencing multiple sources can be a long, tedious, and an overwhelming process not to mention the time and hundreds of dollars wasted on products that just don't work. The process of getting rid of bedbugs is something that you can take into your own hands, but will take years to learn if you rely on the internet or trial and error. But you get to be one of the lucky ones... How does this guide help me get rid of bed bugs myself? What took me several years to learn has now all been wrapped up into a simple step by step guide which will enable you to streamline and target your approach to get rid of bed bugs quickly. This guide is guaranteed to save you time, money, and headache. Not only will this book save you hundreds of dollars from the trial and error of faulty products, but it will save you hours, days, and even years of sourcing information. What will I learn about if I get this guide? This book is jam packed with tons of information, options, descriptive pictures, and a comprehensive guide to thoroughly take you through step by step to get rid of bedbugs 100%. You will learn: Professional extermination techniques Where professional exterminators buy their supplies Natural & non-chemical ways of extermination The best chemicals to kill bedbugs How to make homemade bedbug traps & devices How to get bedbugs out of electronics Where to find bedbugs What bedbugs look like Common myths about bedbugs How to prevent bedbug re-infestation Bedbug statistics, facts & habits Why should I buy this book?
