

Concrete Volume 7: The Human Dilemma (Concrete (Graphic Novels))

Life as Concrete is about to change forever. Former speechwriter Ron Lithgow returns as the title character of Paul Chadwick's critically acclaimed and award-winning miniseries. Trapped in an alien's rock-hard body, Lithgow is an accidental celebrity whose high profile is being courted by a front-page CEO. Though Concrete believes overpopulation to be an important issue, does he want to become the spokesperson for a controversial population control program? While Concrete mulls this generous proposition over with his biologist, Maureen, his longtime aide Larry Munro mulls over an entirely different sort of proposal. Life and violent death take center stage in this compelling new collection from an industry-renowned creative master, and the subject of overpopulation is given the trademark thoughtful exploration that Chadwick fans have come to expect.
