

What Is Your Money Telling You?

Much of our relationship with money is unconscious and habitual. Many people cannot say where their money goes. People may not understand money, often wasting it through lack of awareness. The money in our lives is a reflection of our thoughts, emotions, beliefs, and social attitudes. The good news is that all of these aspects can be changed! Wouldn't you like to have an early warning system so that you can steer your life where you want it to go? Wouldn't it be nice if money could be aligned with who you are instead of your wealth being sloshed around by the waves of circumstance? Wouldn't you like to be able to say that you have enough and you are satisfied with where you are now? What Is Your Money Telling You? will help you to develop a healthy and balanced relationship with money.
