

The Dharma Punks

Set over one long night in Auckland New Zealand in 1994, a group of anarchist punks have hatched a plan to sabotage the opening of a multi-national fast-food restaurant by blowing it sky-high come opening day. Chopstick has been given the unenviable task of setting the bomb before the opening, but the night takes the first of many unexpected turns when he is separated from his accomplice. Chance encounters and events from his past conspire against him, forcing Chopstick to deal with more than just the mission at hand. Still reeling after the death of a close friend, and struggling to reconcile his spiritual path with his political actions, Chopsticks journey is a meditation on life, love, friendship and the ghost of Kurt Cobain.
