

## The Worlds Worst Entrepreneur

Entrepreneurship is the dream of many. But what if that cherished dream turns out to be a nightmare? Aqil Radjab threw himself wholeheartedly into the entrepreneurial adventure. He went bankrupt ending up with his family in debt. After his bankruptcy he started to gather together the pieces of his life, worked hard and built one of the fastest growing firms in the Netherlands, Payroll Company. In The Worlds Worst Entrepreneur Aqil talks about his rise, fall and resurrection as a man and as an entrepreneur. What brought him his success? How did he go from bankrupt to financial security. What practical lessons can we learn from him? In any event, as Aqil says, everyone can be successful!
